PROFESSIONAL SUMMARY

Marketing Technologist who builds automated infrastructure at the intersection of Paid Acquisition, Data Engineering, and API integration. Engineered systems that eliminated 99.5% of manual campaign overhead and deployed real-time budget-protection automation under strict spend constraints — proving that scalable efficiency is built through code, not headcount.

TECHNICAL & CORE COMPETENCIES

- **Automation & MarTech:** Google Apps Script, Python, API Integration (REST, Gemini, Claude), Workflow Automation.
- **Data & Analytics:** GA4, Looker Studio, Google Search Console, Google Ads, Meta Ads, Microsoft Clarity, Shopify Analytics.
- **Growth & Acquisition:** User Acquisition, Performance Marketing, Technical SEO, CRO, Digital Campaign Lifecycle.

PROFESSIONAL EXPERIENCE

- Universidade Lusófona** Feb 2026 – Jun 2026
Digital Marketing Intern Lisbon, Portugal
- **Campaign Automation:** Engineered custom Google Apps Script solutions for Google Ads workflows, achieving a **99.5% reduction in manual execution time per campaign** — enabling budget reallocation from operations to strategic optimization.
 - **Budget Protection:** Deployed an automated 404 error detection system with real-time email alerting, preventing ad spend wastage during server outages across all active campaigns.
 - **Performance Infrastructure:** Architected a custom-coded multi-channel performance dashboard (HTML/CSS/JS), deployed on GitHub Pages, integrating GA4 acquisition data and organic traffic metrics to provide real-time visibility for strategic decision-making.

ACADEMIC PROJECTS

- Omega Boutique | E-commerce Conversion & User Behavior Analysis**
Shopify, Microsoft Clarity, Shopify Analytics, CRO
- Performed conversion rate optimization on a Shopify storefront in an academic simulation, leveraging Microsoft Clarity heatmaps and session recordings to diagnose user behavior patterns and prioritize UX improvements across the purchase funnel.
 - Implemented custom front-end modifications (CSS/Liquid) to craft a premium, responsive checkout experience — optimizing tactile feedback, visual hierarchy, and flow continuity to minimize purchase friction.
- Rolex vs. Grand Seiko | Paid Acquisition & Brand Positioning Audit**
Google Ads, Competitive Analysis, Campaign Dissection
- Dissected live paid campaigns via Google Ads, analyzing creative distribution, messaging psychology, and audience targeting strategies across the luxury watch segment.
 - Identified patterns in ad creative hooks, spend allocation across funnel stages, and competitive positioning strategies — translating raw platform data into strategic takeaways.

EDUCATION

- Universidade Lusófona** Completed Jul 2026
CTeSP in Digital Marketing & Communication
- Academic Excellence:** Final average of **18.35/20** (*Academic Merit Grant, 2026*)
